**Essyp Technologies Limited**  
**NO 3 Alhaji Bashiru Street,**  
**Okota Lagos,**  
**Nigeria.**

Thank you for your interest in our company.

**Essyp Technologies Limited** with RC:1412220 is an IT solutions company based in Nigeria. We are an organisation of highly skilled ICT professionals providing expert solutions to various ICT problems by means of software design, development, implementation and management. We provide cutting edge technologies and solutions to Nigerian businesses and organizations. We are proud and excited to work with a wide and diverse range of clients in different sectors. Since our inception, we have evolved from a small organization to a company providing enterprise ICT services to mid-range and large-scale companies across Nigeria. Part of our strength is in our ability to deliver high quality work on schedule.

The information contained in this packet provides you with a brief introduction to who we are, what we do, and how essyp products can be of value to your business. To accomplish this, we present an overview of our services, highlight our capabilities, and offer some brief examples of our experience.

Because every client's project poses its own set of unique challenges, it is impossible to compose one document that completely addresses everyone's specific needs. What we have attempted to do in the following pages is simply provide a glimpse into some of our capabilities. Essyp is a full custom services firm. As such, it's our business to quickly adapt to meet our clients' diverse needs... and we have a proven track record of doing just that.

Other services core to us also include Online/Digital Marketing. Our online campaigns guarantees the following; reaching a wider online audience, increase the visibility of web contents and products, improve conversion rates and decrease campaign/online advertising cost and reposition budget to provide a higher return on investment (ROI).

We are always interested in exploring new projects, so if you're interested in discussing your particular software development challenges with us, please contact us at: [info@essyp.com](mailto:info@essyp.com) We're confident that our staff of experienced professionals can be a valuable to your needs of having your own custom-made software solutions. You can own your codes 100%. Yes you can!

Sincerely,

A handwritten signature in black ink, appearing to read "Francis A.N. Mogbana", is placed over a light blue rectangular background.

Francis A.N. Mogbana

## Mission

Our mission is to enhance the business operation of our clients by developing and/or implementing premium IT products and services.

Our mission includes:

- Providing high quality software development services, professional consulting and development outsourcing that would improve our customers' operations;
- Making access to information easier and securer (Enterprise Business);
- Improving communication and data exchange (Business to Business);
- Providing our customers with a Value for Money and
- Providing our employees with meaningful work and advancement opportunities.

## Vision

Essyp becoming a leading IT company for Consulting Services and Deployment of best of breed Business Solutions to top tier domestic and international customers.

Building an international institute of information technology where best brains will emerge from.

## Corporate Overview

### Who We Are...

Essyp is a custom software services firm based in Lagos, Nigeria. We have extensive experience in many diverse areas of both software and hardware development. Our experienced staff of professionals has worked with a wide array of platforms, languages, and tools in the course of our various projects.

### What We Do...

Quite simply: we write code. However, unlike most software companies, we realize that's only part of the job. We don't just write code... We develop professional software. This is why our clients choose essyp. Many companies can find programmers to generate code. However, few have the experience to produce professional quality software.

**[www.essyp.com](https://www.essyp.com)**

**Address:** No 3 Alhaji Bashiru Street, off Grandmates Road, off Ago palace Way Okota Lagos, Nigeria..

**Contact:** +234 (0) 813 014 8519, +234 (0) 809 360 7355 Email: [info@essyp.com](mailto:info@essyp.com)

Our ability to develop code is only the beginning of our capabilities. Being a “custom” firm, we are able to provide our clients with a variety of services. A few of the services available from us include:

- System Architecture and Design
- Development
- Project Management
- IT Support and Network Administration
- Complete Turnkey Systems
- Testing and Quality Assurance
- Feasibility Studies
- Technical Documentation and Training Services
- Cyber Security

We are available on both a fixed and variable cost basis.

**Partnerships...** Our goal at essyp is to become our client's first choice for software services. To accomplish this, we strive to exceed our client's expectations. Our clients cannot simply be satisfied with the job we do... they must be impressed. In this manner, we strive to build lasting partnerships and ensure client satisfaction. It is upon this foundation that our clients are confident in returning for future development needs.

**Experience...** Providing quality software services begins with experience and ends with dedication. Our professionals have years of experience in design, development, and testing of countless software projects. It is this experience, along with our dedication to giving clients the best quality service possible, which sets essyp apart from other firms.

## Experience

**Dynamic...** As a custom software development firm, essyp has amassed an impressive resume of projects. It's the custom nature of our development projects that has enabled us to acquire vast experience in many diverse areas of software development. Our experience, in conjunction with our quality personnel, enables us to be dynamic enough to tackle almost any software development project.

Essyp has a proud history of utilizing experience to provide our clients with the best services possible. This difficult task is accomplished by applying experienced personnel to every project. Essyp was founded on the principle of gathering an elite group of software engineers and professionals, and leveraging their collective abilities. Naturally, each of these "producers" brings their own particular specialization and experience to the table. Once they join the essyp team, we cross-train our consultants to diversify and increase their overall skills. The result for our clients is a

group of individuals that can genuinely contribute and have a positive impact on development projects

Areas of Expertise...

### Application Design, Development, and Testing (GUI, Database, etc.)

Essyp consultants have experience in many different aspects of the development process. Because we are a custom firm, there are no limits on what projects we can undertake. It is this ability that has enabled us to accumulate experience in so many diverse areas. A few of these include:

- **Software Development – ERP, CRM**
- **Mobile Application Development**
- **Web Development (Internet/Intranet)**
- **Website And Web Portals Deployment**
- **Web-Enabling Applications**
- **E-Commerce Deployment**
- **Online Payment Gateway Integration**
- **Point-of-Sale and General Business Services Applications**
- **ETL And Data Migration**
- **System Architecture and Implementation**
- **Client/Server Applications and Distributed Systems**
- **Systems Integration**
- **Platform Migrations and Code Porting**
- **Project Management Consulting**
- **Cyber Security**
- **Digital Marketing**
- **Software Development Trainings**

## Software Development Languages, Platforms, and Tools...

Another advantage of providing custom services is that Essyp consultants have gained extensive experience with a wide variety of languages, platforms, and tools during the course of our projects. In addition, Our consultants have become experts at adjusting quickly when faced with new development environments. We are able to rapidly “come up to speed” on existing projects. The following lists just a few of the languages, platforms, and tools with which we have experience:

Mobile App (Native)	Android, Apple/iOS
Mobile App (Cross platform) Tools	Android, iOS, Blackberry, Windows Codename One, HTML5, CSS3, JQuery, JavaScript, Cordova, ionic
